PLANTATION DRIVE

Teachers of Seth M.R Jaipuria School participated with great Zeal and Enthusiasm on the occasion of MASS TREE PLANTATION DRIVE on 7th July. The school collected 80 saplings from greenways nursery .

The staff of various classes planted saplings in the garden of the school to raise awareness and consciousness about environment among the masses.

Tree plantation is not just something that should be done; instead, it is a necessity, the urgent need of the hour. Planting of trees is especially important to protect our environment against air pollution and global warming. The drive was a huge success, empowering students with substantial knowledge of environment and plants.

YELLOW DAY CELEBRATION

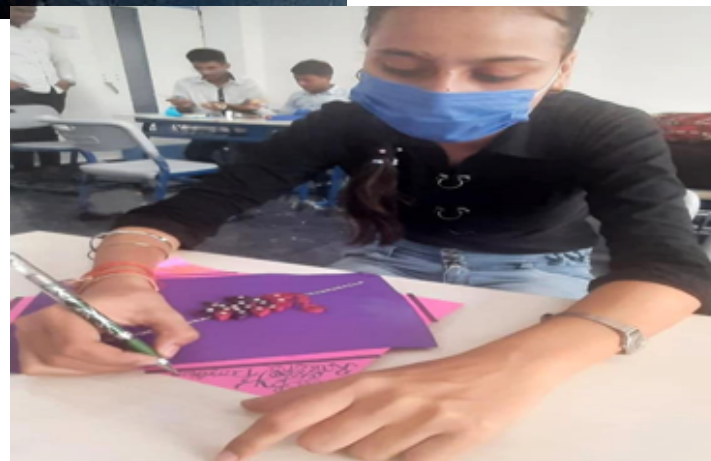

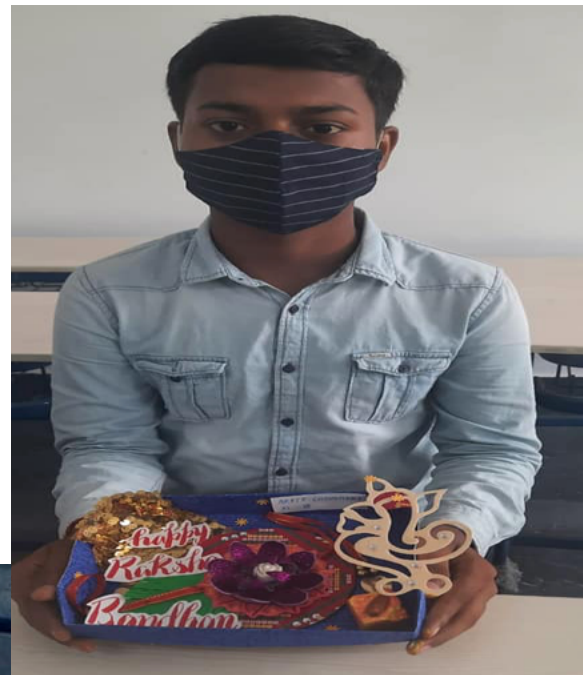

A day dedicated to the yellow colour was marked with children dressed in different hues and tints of yellow. Children were not only beautifully dressed in their favorite yellow dresses but also brought yellow objects to make it a complete "Yellow Day!"

A garden with paper sunflowers was also set up in the KG classes. The children enjoyed this activity and were very happy when they received a crown decorated with sun flowers to take home. The teachers were beaming with pride when the confident little commentators described the yellow objects with expressiveness, flair and ease.

Focusing on the theme the teachers planned art and collage activities and their art work was displayed on the soft boards. The bulletin boards were reverberated with quotes, appealing posters of minions, tweety, honey bees and sunflowers highlighting the essence of yellow colour. To make the children understand about the significance of yellow colour, various colorful activities including drawing, coloring, origami, paper craft etc. were conducted in a lively, vibrant and high spirited environment.

Cheerful Children attired in yellow outfits were sparkling with optimism, enlightenment and happiness. Beams of yellow shades carried the promise of a positive future flashing creative thoughts in the young minds. The motive of celebrating this yellow colour day was to make the children aware of yellow colour, its significance and to develop fine motor skills in the students. They spent the day with utmost enjoyment. Yellow- the colour of wisdom and intellectual energy had a positive influence on our tender tots."

RAKHI MAKING ACTIVITY

Raksha Bandhan' or 'Rakhi' is a special occasion to celebrate the virtuous bond of love between a brother and a sister which is one of the deepest and noblest of all human emotions. To commemorate this festival,a Rakhi Making Activity was organized for the students of the Senior Wing on 19th August. Students made beautiful Rakhis using different articles like silken, thread ,ribbon,etc. Their artisanship was quite fascinating and children thoroughly enjoyed this activity that tickled their creative side.

JANMASHTAMI CELEBRATION

बांसुरी वादन से, खिल जाते थे कमल
वृक्षों से आंसू बहने लगते,
स्वर में स्वर मिलाकर, नाचने लगते थे मोर ।
गायें खड़े कर लेतीं थी कान,
पक्षी हो जाते थे मुग्ध,
ऐसी होती थी बांसुरी तान... ।
नदियां कल-कल स्वरों को,
बांसुरी के स्वरों में मिलाने को थी उत्सुक साथ में बहाकर ले
जाती थी,
उपहार कमल के पुष्पों के,
ताकि उनके चरणों में,
रख सके कुछ पूजा के फूल ।
ऐसा लगने लगता कि,
बांसुरी और नदी मिलकर,
करती थी कभी पूजा जब बजती थी बांसुरी,
घनश्याम पर बरसाने लगते,
जल अमृत की फुहारें अब समझ में आया,
जादुई आकर्षण का राज जो आज भी जीवित है,
बांसुरी की मधुर तान में माना हमने भी,
बांसुरी बजाना पर्यावरण की पूजा करने के समान है,
जो कि हर जीव में प्राण फूंकने की क्षमता रखती,
और सुनाई देती है कर्ण प्रिय बांसुरी ।

INDEPENDENCE DAY CELEBRATION

It was a red letter day in the history of India when the country got her freedom on August 15, 1947. It took hundreds of years for us to break shackles of slavery. People of the country celebrate this festival every year with great pomp and show. Our school also celebrates this festival every year. For this year, we had made all the preparations. In the morning Dr.R.P Singh ,the Principal of Medical College Fatehpur was the Chief Guest of the Programme. He hoisted the National Flag at 8:00am. All the students and teachers saluted the flag and then sang the National Anthem. Then followed the Cultural Programme.Patriotic Poems and Songs were recited by the the students.

SCHOOL REOPENING

Everybody was very much excited for this day but it was a huge responsibility . School needs to prepare themselves for the secure reopening. Seth M R jaipuria school Fatehpur was too excited to prepare them for this secure reopening, as keeping in mind the student safety it was required to have a plan. Therefore a meeting a called with director, principal, headmaster, coordinator and teachers where all the ation plans were discussed and then finally everybody worked hard to make that plan a success .

The first and the foremost thing that was done was the sanitization of the whole building and busses. Later the school was planned to function with the 50% capacity. Each day after the dispersal of the students , sanitization is done. Studnets are given breaks to wash or sanitize their hand after 2 periods. No one was allowed to share things. Wearing mask in crowded space was compulsory. Now is the time to prepare for COVID-19. Simple precautions and planning can make a big difference.

RETURNING TO SCHOOL

Mohammad Alman

IX'C

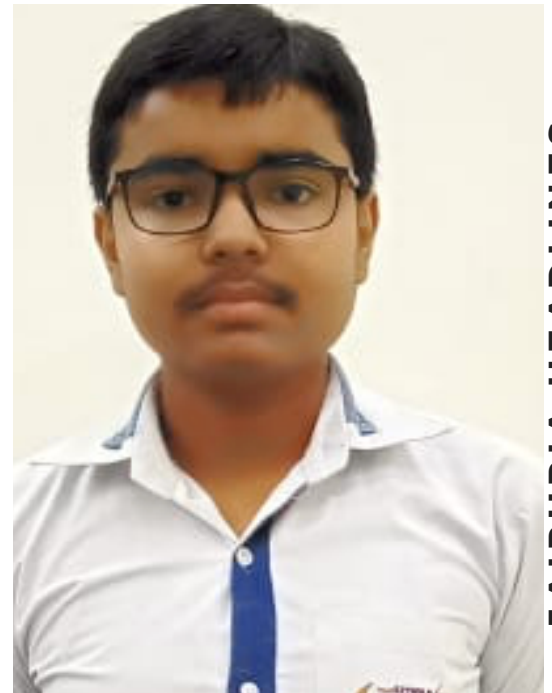

"I didn't have a personal computer and was attending online lessons from a mobile phone. We had to either write the homework in the workbook and then send the photo of it or type it on the keyboard. Sometimes there were technical problems with the internet or electricity and we were missing the lessons, now we will cover those materials too. I am happy to return to school, it was boring at home and also I missed my friends and I am happy to see them."

Ishnavi

IX' A

"Don't remind me about online lessons. Going to school is cool. There are many changes though: you can't hug the teachers, they always wear masks, hugging friends is not allowed either, but we violate this rule sometimes. Breaks are shortened and we have to wash our hands many times. Also, you are not allowed to lend something to others. I am carrying water in the bottle. Still, it's good to go to school. We are repeating the materials from the previous year and I understand everything better in class than on the online lesson."

Abhay Raj Singh

VIII

"I am happy to return to school. Distance learning was hard, working with computer caused pain for eyes and fingers. I could understand the online lessons, but it was easier when we had face-to-face meetings with the teacher. One more thing I am happy about is to see my friends, meet new teachers. If the lessons were distance again, we won't have a chance to get introduced with teachers. We have new teachers this year."

RETURNING TO SCHOOL

Utkarsh Raj Gupta

VI

"Online classes were interesting at the beginning, but now I think going to school is better. We could only see the face of the teacher at online lessons, eyes were getting tired and you miss the human interaction. But it was good that the exams were cancelled."

"Now I am back to school. My friends got taller in this period. I am happy to return to school because I can see the people and talk to them. I am having fun on breaks, but we all remember that we must be careful. We have to avoid getting the virus or transfer it. Yes, we have lots of homework, but I don't complain. I like school and I am happy. If the online lessons are back, I don't know what will I do. I think I will start drawing instead of studying."

Rummah Mariyam

VIIth

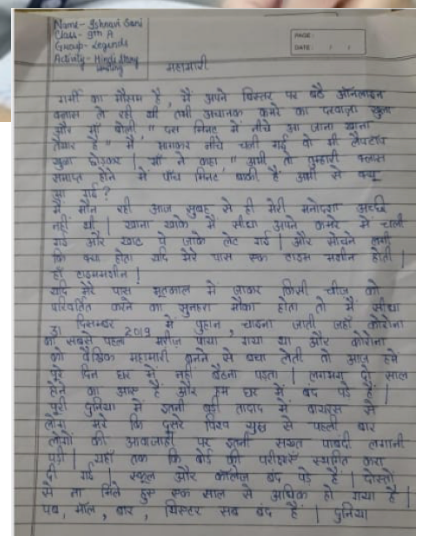

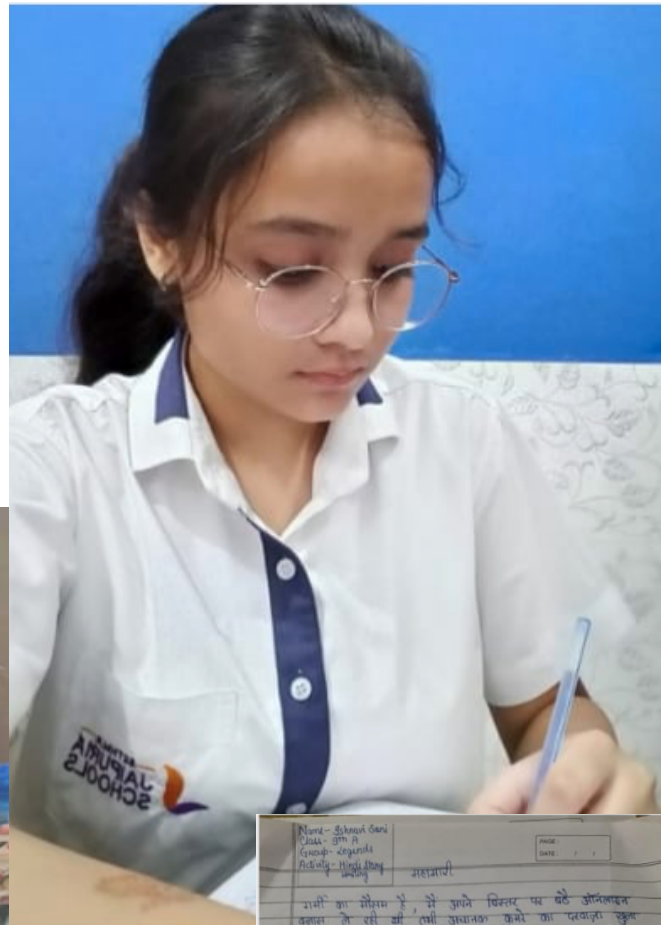

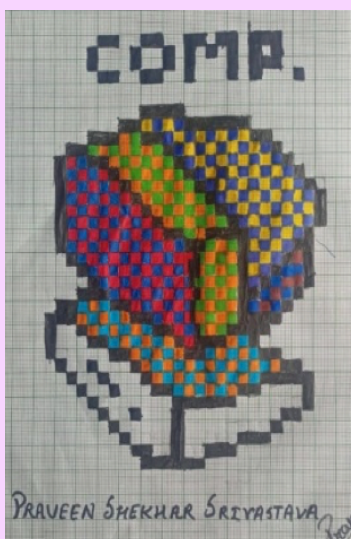

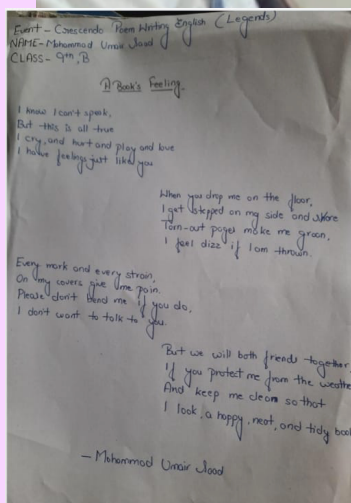

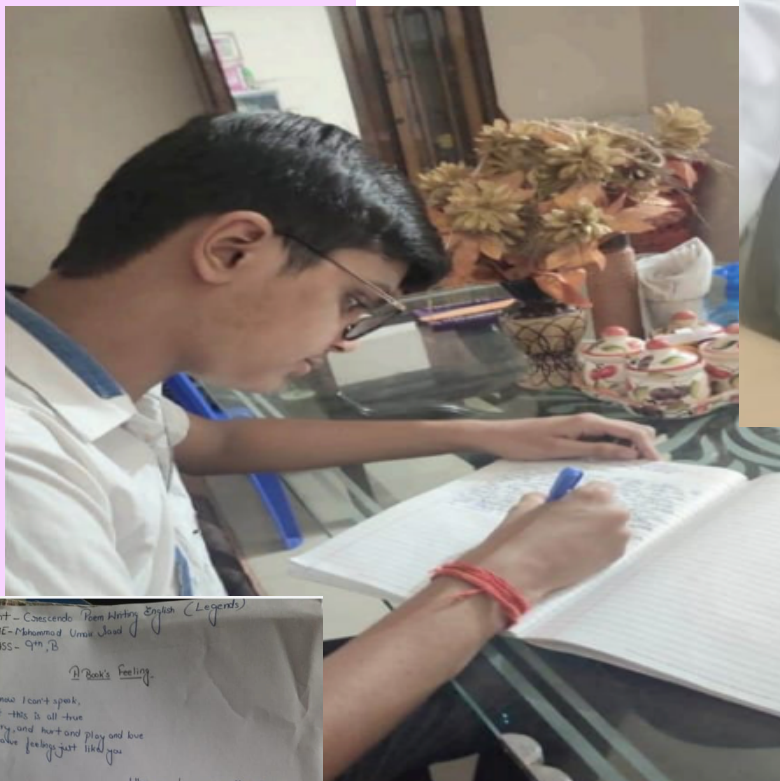

"I am happy to return to school because I really missed my friends and teachers. I love school and I think that interaction with my peers is part of the education process."

Alvin Mathew.

CRESCENDO- A CULTURAL PROGRAM

Seth M.R Jaipuria School every year organised a cultural event name "CRESCENDO", it is an inter Jaipuria cultural event and this year it was organised virtually. The inauguration of the competition was done on 16Aug 2021. Our school students participated with great enthusiasm and zeal. There were more than 30 events covering all the fields - arts and craft, drama, performing arts, and education and the students were divided into 4 groups for each category and were supposed to send the entries virtually.

The results were announced after 26 Aug and our students got awards too. Deveraj Tilak got second prize in Beat boxing, Mayank Mishra got 3rd prize in essay writing english, Athrav Dwivedi 3rd prize for Story writing English. Ishnavi Soni 3rd prize for story writing Hindi. Final closing ceremony was done on 28 Aug 2021.

Seth M.R Jaipuria School, Fatehpur was awarded as "BEST EMERGING SCHOOL".

Cultural activities facilitate the holistic development of students. With these, the students no longer remain bookworms. They study, participate in different activities and follow their passion. So, parents should choose those schools that give equal importance to academics and other activities for a child's development.

TEACHER'S DAY CELEBRATION

Seth M.R Jaipuria School, Fatehpur ; 4th September: A function was held in the school premises on 4th september's afternoon to celebrate one of the dearest programmes of school life, The Teacher's day.

This year it is celebrated by the students of class 11th. Director of the school, presided over the whole function, attended by a large number of students.

The program began with the Lamp lighting ceremony and then volunteers distributed Cards to all of the teacher's. Then the function continued with an opening chorus song performed by the students.

Then followed by speeches about teacher's day by some selected students of the school. The Principal delivered a touching speech about the well being of students.

In the end, student promised that every student of the school will be more hardworking and careful towards every decision and wished all our teachers along with peaceful working life. We all left the programme with a heavy heart of being loved so much.

AUTUMN EQUINOX 2021: A SEPTEMBER DATE KEY TO CHANGE OF SEASONS WORLDWIDE

Autumn Equinox 2021: An equinox occurs twice a year — once in spring and once in autumn — when the Sun appears directly above the Equator and we get a day and night of almost equal length. Earth is slightly tilted on its axis, because of which different parts of it get unequal amounts of sunlight during different times of the year as the planet travels around the yellow star.

WHAT WOULD HAVE HAPPENED IF OUR EARTH WERE NOT TILTED LIKE THIS?

There would be no seasons. The Sun would always remain exactly above the Equator, and every location would receive a fixed amount of sunlight. These are, however, days when the Sun does appear directly above the Equator. And when this happens, we get a day and night of almost equal length — i.e. around 12 hours each. This astronomical event is known as an equinox — a mix of two Latin words: aequus (equal) and nox (night). Responsible for the change of seasons on Earth, an equinox occurs twice a year — once in spring and once in autumn. In the northern hemisphere, the spring equinox occurs in March (March 20 or 21) and the autumn equinox happens in September (September 22 or 23). The seasons are reversed in the southern hemisphere. When it's spring equinox in the northern hemisphere, the date marks the autumn equinox in the southern hemisphere, and vice versa.

We proceed towards winter after the autumn equinox as days begin to get shorter and the nights longer.

WHEN IS AUTUMN EQUINOX 2021 IN INDIA?

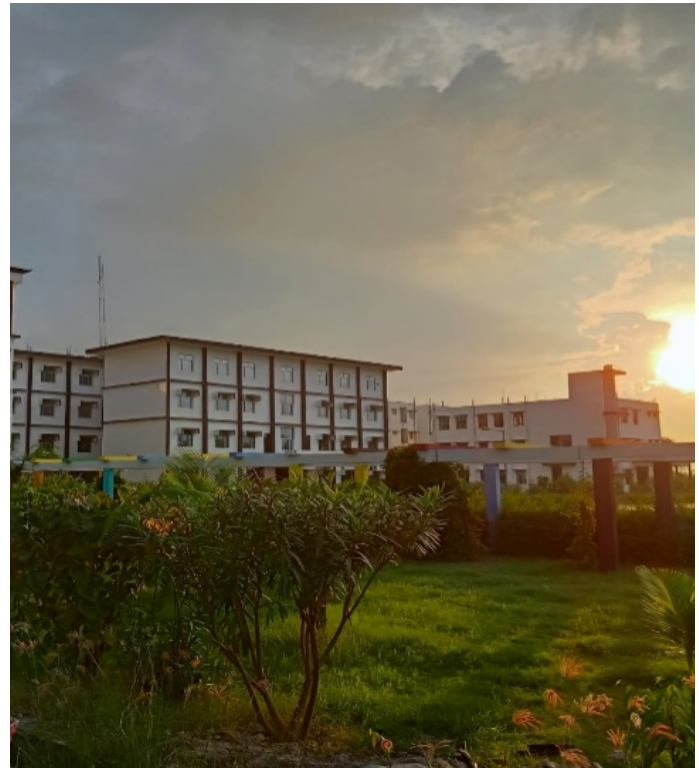

India is part of the northern hemisphere and will mark the autumn equinox this year on Thursday, September 23. The equinox sunrise is likely at 06:09 am and the sunset at 06:16 pm, and the day length will be 12 hours, 06 minutes and 34 seconds. Days will begin to get shorter after Thursday. For example, the day length on Friday, September 24 will be 12 hours, 04 minutes and 52 seconds.

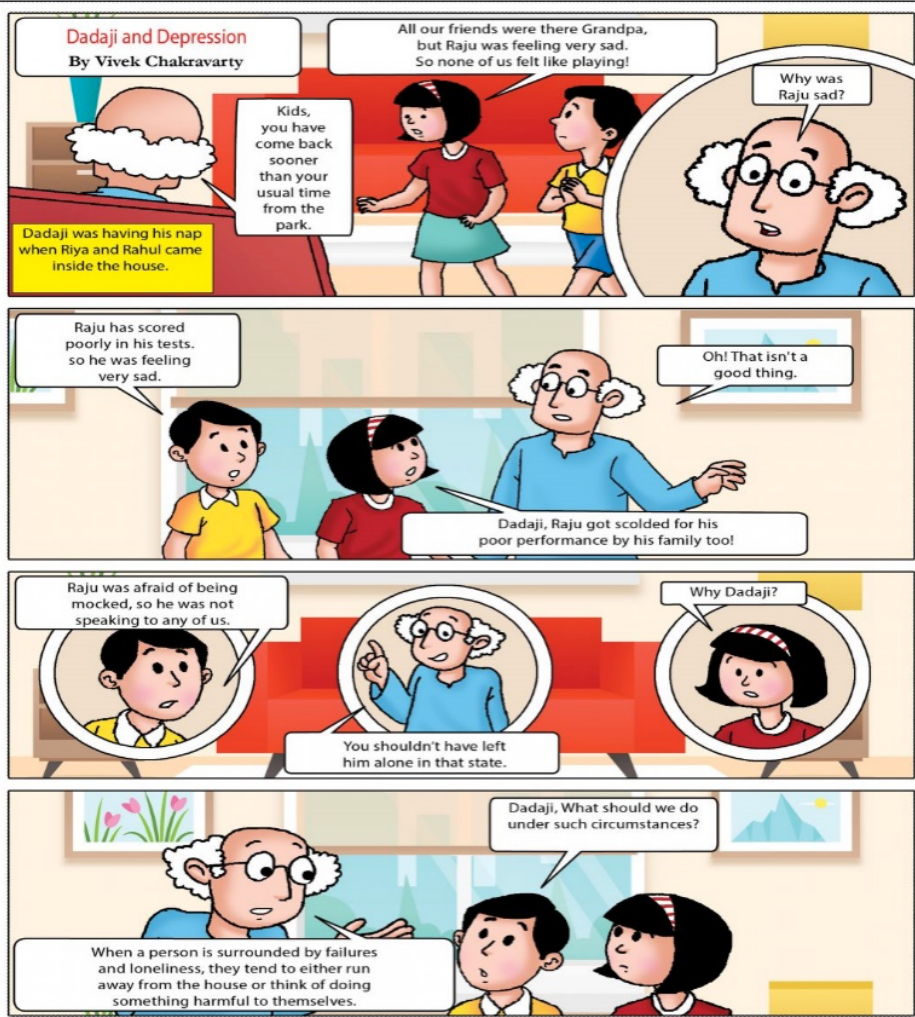

About 67.3 per cent of the Earth's landmass is situated in the northern hemisphere, which includes the entire North America, Central America, and Europe, besides the northern part of South America, major parts of mainland Asia and about two-thirds of northern Africa. The northern hemisphere experiences summer from June to September and winter from December to March.

EQUINOX CELEBRATION ACROSS THE WORLD

The September equinox is celebrated in different ways across the world. The full moon around the autumnal equinox is celebrated as Harvest Moon, which is considered to be the year's brightest and biggest full moon.
