🌟 ASSESSING LEARNING. GUIDING PROGRESS. BUILDING EXCELLENCE. Seth M. R. Jaipuria School, Malwan Campus successfully conducted Periodic Assessment – I for students from Nursery to Grade 12. At Jaipuria, assessments are not merely about marks or grades. They are an important part of the learning journey, helping teachers understand how effectively students are grasping classroom concepts, applying their knowledge, and progressing in their learning.

The primary objective of the assessment was to evaluate students' day-to-day learning, conceptual understanding, subject knowledge, and ability to apply what they have learned.

The assessment process incorporated a variety of age-appropriate approaches, including:

📝 Written Assessments – Evaluating conceptual understanding and subject knowledge.

🔬 Practical Tasks – Encouraging students to apply learning through hands-on activities.

💬 Interactive Evaluations – Assessing communication, understanding, participation, and application of concepts.

The insights gained through these assessments will help our teachers identify learning gaps, provide timely support, strengthen classroom strategies, and plan more effectively for every learner's needs.

Because at Jaipuria, assessment is not the end of learning—it is a tool that helps us make learning better. 🌱📖
